## TRANSFORMER WAIT

Thank you for your patience since we fried the transformer on the Salt System. We bought the system through Preference Pools in Roseburg who in turn ordered from Balboa Instruments Inc. located in Tustin, CA.

Balboa did not have any transformers on hand, but they were on order from Australia. We waited three weeks and when the transformer came it was not the correct one for this particular system.

We are now waiting for Australia to return a call to Preference Pools as to when we can get the correct transformer.

In the meantime we are chlorinating the pool by hand with liquid chlorine purchased in 15 gal. barrels from Coastwide. It takes a little over a barrel per week.
